Hello M. Perreault – I greatly enjoyed attending yesterday and thanks for your help. The Commissioners had asked for the attached Student Project done some time ago, which is on my personal website.

I attach the report as well as the Appendix to the report; please note that this was a student project, was not peer-reviewed, and does not represent the current views or opinions of the university, the School of Environment, or myself –

Thanks and I will be sending a few more things that were requested –

Best regards

Bruce Case

Hello Dr Case,

Happy to see that you'll be with us Wednesday.

Do you need us to reserve a hotel room for you?

Sincerely,
Jonathan

Thanks and OK – I think I will do it if only for my own sake, as some of the numbers are hard to remember precisely – but not a presentation, a document summarizing our studies. Will send when finished today.

I have decided to actually come to QC so will not need to share desktop. Am coming together with Jack Siemiatycki and Michel Camus, arriving around 8 pm on the 14th –

Subject: Presentations

Dear Dr Case,

If you have prepared short presentations for the meeting could you send them to me in advance? It would be easier for us to use this copy during the meeting than to share your desktop in the videoconferencing.

As mentionned previously it is not necessary to have prepared such presentation, most participants won't have any.

We recommend using one only if it makes explaining a concept or a fact (pictures, graphs, tables, etc.) easier to understand.

Sincerely,

Jonathan Perreault
