

Community Mémoire Template - BAPE Wind Project (Grosse-Île)

Name: Julia Ann KeatingCommunity: Grosse IleEmail / Phone (optional): [REDACTED]

My Position:

I support this project I oppose this project I am undecided

My Main Concerns or Comments:

My concern about the windmills being put in our small community are many but mostly because it's too close to the people. There are no proven facts that there's no chemicals or radiation being transmitted from them. Also the vibration or sound waves won't harm our fishing industry. So yes I am against this project.

What I Would Like the Commission to Consider:

Please consider the community of Grosse-Île who are against this windmill project. Thank-you
