

GROSSE-ÎLE WIND FARM PROJECT (PEDGI)

List of documents remaining to be submitted for the project's environmental assessment and their anticipated submission dates.

| Document to be submitted | Remarks | Anticipated submission to the MELCCFP |
|--|--|--|
| Traffic and transportation management plan | Preliminary plan completed. Details regarding component dimensions and weights, as well as truck and transport vehicle specifications, are being validated based on the turbine model currently under selection. | Preliminary plan submitted on 2025-12-19. Details on component and vehicle dimensions and weights expected by the end of February. |
| Docking planning and scheduling | Preliminary planning submitted. Details regarding component dimensions and vessel specifications expected by the end of February. | Preliminary plan submitted on 2026-02-04. Details on component and vessel dimensions expected by the end of February. |
| Environmental monitoring program | Submitted. | Submitted on 2025-12-10; final version to be provided as part of the environmental authorization process. |
| Residual waste management plan | Submitted. | Preliminary submission on 2026-02-11; final version to be provided as part of the environmental authorization process. |
| Bird mortality monitoring program | Submitted. | Submitted on 2025-12-10; final version to be provided as part of the environmental authorization process. |
| Measures to be implemented during wind farm operation to reduce avian collision risk | Submitted. | Submitted on 2026-02-11. |
